

NIB's employment support services programs provide people who are blind with a wide range of career options that suit their interests, goals, and capabilities. NIB and its nationwide network of associated agencies have career opportunities for people of all experience levels and professional backgrounds. These rewarding and challenging positions are helping thousands of people who are blind achieve greater independence through meaningful employment.

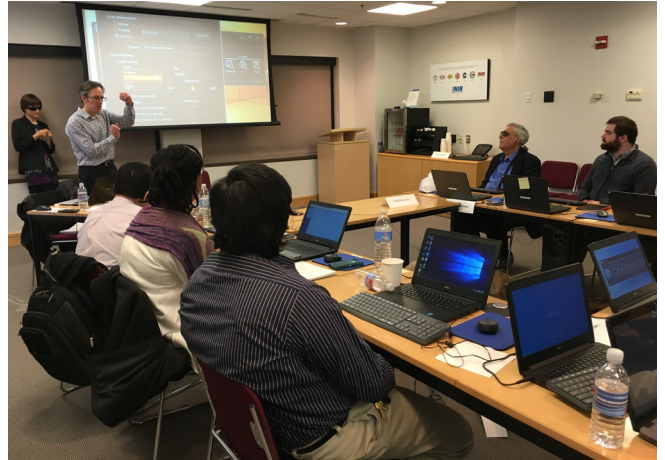

EMPLOYMENT TRAINING PROGRAMS

Professional Mastery of Office Technology for Employment

(ProMOTE): Provides advanced assistive technology training using the most common office software programs – Microsoft Word, Excel, and PowerPoint – as well as instruction in internet research and creating accessible documents.

Contract Management Support: A unique partnership with the Defense Acquisition University provides the technical training and skills needed for career opportunities in contract administration.

Information Assurance/Cybersecurity: Provides participants with the knowledge and experience needed for A+, Network+, and Security+ certification by the Computer Technology Industry Association (Comp TIA).

Employment Opportunities

- Distribution and Supply Chain Management

Employment Partnerships

- Partner with NIB to employ people who are blind at your organization.
- Use NIB as a resource to find and hire talented people who are blind.
- Consult NIB to help make your workplace and technology accessible for people who are blind.

I have seen participants get off disability, become homeowners, and start families. The program works!

– Jude Lucien, Contract Management Support training program graduate and U.S. Army civilian employee.

Because NIB's training is on-demand, I could log in any time to access the materials and talk to mentors.

– Brandon Miller, Information Assurance training program graduate.
